

We the People of California’s 2nd District demand that you write Governor Newsom, Secretary Wade Crowfoot, and CAL FIRE Forestry for an immediate moratorium on logging in the Jackson Demonstration State Forest (JDSF). JDSF holds carbon that is vital to Mendocino’s role in fighting climate change. JDSF has more registered Native American sacred sites than any other State Forest in California. We demand that our 2nd District Representatives protect JDSF from industrial forestry and protect our Pomo and Coast Yuki sacred sites.
